### In the Rearview Mirror

MoDOT recently completed a massive upgrade of Missouri's busiest highways. Thanks to Missouri's support of Constitutional Amendment 3 in November 2004, MoDOT delivered 2,200 miles of smoother, safer roads in two years, a full year ahead of schedule!

About 86 percent of Missouri's population lives within 10 miles of the smoother roads, although all Missourians are reaping the benefit of this aggressive highway improvement project.

Rounding out the improvements package are:

- brighter stripes and signs;
- reflective pavement markers separating lanes;
- improved shoulders with rumble stripes; and
- safer guardrails.

### The Road Ahead

Improving the rest of the major highways in the state (3,200 miles) and repairing or replacing 800 of Missouri's worst bridges are two major transportation initiatives in the works. These exciting transportation projects are possible because of your support. Thank you, Missouri!

### Playing It Safe

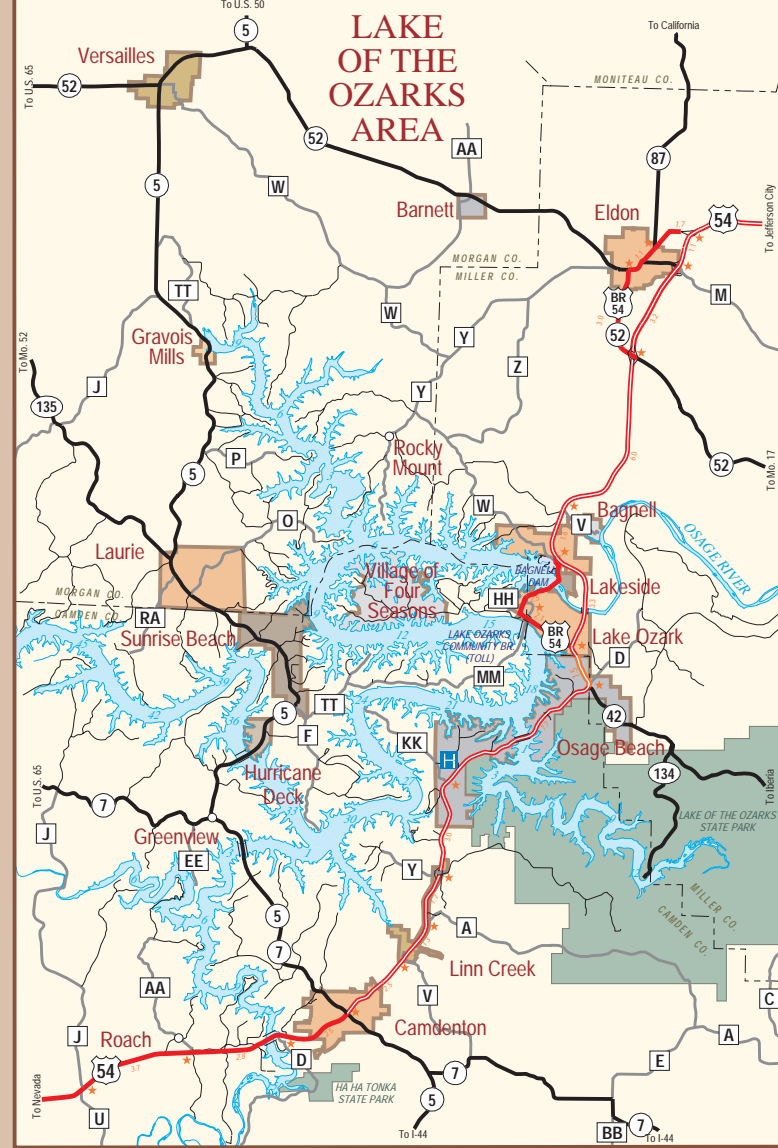

- In Missouri, 68 percent of the people who die in traffic crashes are not wearing a seat belt.
- Missouri law requires children under 8 years of age to be in an appropriate child safety seat or booster seat unless they weigh 80 pounds or are 4-feet, 9-inches tall. Call 1-800-800-2358 or visit [www.mdot.org](http://www.mdot.org) for more information.
- Injuring or killing a highway worker could cost \$10,000, as well as a lost license for a year. The difference is you. Drive smart, and arrive alive.
- Missouri law requires drivers to slow their vehicle down and to move over when safe to do so when approaching emergency vehicles working on the highways.

### Along the Way

Missouri has a large and complex transportation system that is more than roads and bridges. It includes rail, barge, air and public transportation, and walking and bicycling.

Here are some interesting facts about getting around in Missouri:

- Missouri is home to four million licensed drivers, ranking as 17th in the nation.
- With 32,423 miles of state highway, Missouri ranks seventh in the United States.
- The Show-Me State claims the most major river bridges of any state: 55.
- The cost to build one mile of a four-lane highway ranges from \$4 million to \$10 million.
- About 247,000 tons of salt are used each winter to keep Missouri roads clear.
- The cost to pick up litter on Missouri highways runs about \$5.5 million a year.
- Public transit annually provides more than 64 million trips for Missourians.
